

Berry *Small Farm* Field Days

FRI 6 & SAT 7 SEPT 2024
BERRY SHOWGROUND

Millpaca - Breeding Perfection

Alpacas are a relatively new farm species to Australia, having arrived as recently as 1987. But they have a long and noble history in the culture and economy of South America, where they have been domesticated as the sheep of the Andes for over 6000 years.

In the barely two decades since their introduction, leading Australian breeders like Millpaca have applied to alpacas those same principles of breeding and husbandry which were applied to the Spanish Merino in the previous 200 years establishing international standards for excellence in fleece production. Today Australia is poised to lead the New World

in the production of high quality alpaca fleece and importantly for a sustainable meat industry.

Millpaca is a professionally-run alpaca stud farm, based in Berry NSW, that specialises in breeding pure-bred alpacas of exceptional quality. Our services include selling animals to boost your stock numbers, and hiring out award-winning stud males for mating purposes.

When you purchase an alpaca from Millpaca; or utilise our stud service, you really can be assured that they are among the best Huacaya alpaca stock. Our slogan 'breeding perfection' reinforces our ongoing aim to breed the best, and that's the Millpaca difference.

millpaca

BREEDING PERFECTION

Contact Ian Frith for more information on (02) 4464 1728 or visit our website at www.millpaca.com

Welcome

to our 11th Berry Small Farm Field Days held at the beautiful Berry Showground with exhibitors from all over, to interest both small landholders and backyard gardeners alike.

The Millpaca Livestock Pavilion has a huge variety of farm animals on display and is sure to be a big hit with the kids.

In addition to the interesting talks in the Berry Vet Talk Tent, there are also specific farming skills talks and demonstrations plus talks from some of the livestock exhibitors.

We thank all of our sponsors, particularly our Gold Sponsors – **Millpaca, 2ST/PowerFM**. Also, the many exhibitors for coming along and displaying their products and services.

The Berry Small Farm Field Days is a fund-raising event staged by the Rotary Club of Berry and we hope you enjoy all that the Field Days have to offer.

BEEKEEPING	1.00 - 1.45	VIRGINIA MUMFORD & SUZIE SMITH	SHOALHAVEN BEEKEEPING ASSOC.
SUSTAINABILITY	2.00 - 2.45	TOM DAVIES	EDGE IMPACT

GUEST SPEAKER PROFILES

ERIN COOPER

SOUTH COAST KITCHEN GARDENS

Erin has lived and gardened on the South Coast of NSW for the past 10 years. She is passionate about creating a lifestyle that supports healthy habits for herself and her family, which includes growing organic produce, spending time in nature, and constantly experimenting in and learning from her own garden. She believes every household should be growing its own veggies and herbs, whether in balcony pots, patio containers, or a full-blown kitchen garden. She holds a Bachelors of Science degree in Biology and has extensive experience working in a local garden centre, which fuels her dedication to sharing her knowledge and passion with others. When not gardening, she enjoys cooking, practicing Pilates, cheering her children on from the sidelines, and volunteering in the Berry & District Garden Club.

TIM FRANCIS

A TASTE OF PARADISE

Tim and Andrea Francis founded their farm, A Taste of Paradise as a social enterprise in the late 1990s, to support disadvantaged and at-risk young people. The project has become a Registered Charity with Deductable Gift Recipient status. Tim grew up in Canberra and had an interesting upbringing with a family history involved in social justice issues around the world. In a past life Tim was a Signwriter and went on to further study at TAFE, University, and a range of courses to prepare him to undertake the exciting and challenging enterprise the farm has become. A long-term illness forced Tim to look at what we eat and good nutrition. The journey of the study of Organic Farming and a farming system based on Permaculture Principles commenced.

Tim often says he feels well out of his depth most days trying to run a charity alongside the farm. Without passionate, capable, qualified staff and a dedicated team of volunteers (including a long suffering wife and family), supported by our local community, the charity would not continue to achieve great outcomes with young people. atasteofparadise.org.au

DR. PIA WINBERG

CEO & CHIEF SCIENTIST - VENUS SHELL SYSTEMS PTY. LTD

Pia is a marine molecular ecologist, taking sources of novel biochemistry from the oceans to the human world. Her research spans marine ecosystems, to applied technology that links marine molecules to human health, nutrition and biotechnology. To make an impact, Pia has commercialised Australia's first seaweed farming system for human food, skin care and health products. The brand is PhycoHealth which is now sold online and in retail throughout Australia. The seaweed grows 50 x more food per area than other crops and leaves no waste, reduces greenhouse gases, uses no water, protects coastal ecosystems and relieves pressure on land for food production.

VIRGINIA MUMFORD & SUZIE SMITH

BEEKEEPING ASSOCIATION

Virginia and Suzie are both local members of Shoalhaven Beekeepers and they will explain the basics of setting up beehives and how to get into beekeeping.

TOM DAVIES

EDGE IMPACT

Following a UK education and a career in the British Army, Tom came to Australia. Tom retrained at UNSW (Master of Environmental Management Program) and has since worked in leadership roles across primary resources, energy, finance, construction as well as philanthropy sectors. His notable achievements include driving sustainability nationally and internationally, leading the insurance industry's Climate Change Action Strategy, establishing Mountain Ridge as a sustainable farm, restaurant, and winery on the NSW South Coast, and pioneering a new era of sustainable homes through development and building companies.

JASON HODGES

LANDSCAPER & GROWER

As a teenager, Jason studied Landscape Horticulture and Construction at the respected Ryde TAFE (and actually ended up teaching the course there later in life). He is a four-time Melbourne International Flower and Garden Show (MIFGS) Gold medalist, and in 2012 made his Show Garden debut at London's prestigious Chelsea Flower Show.

SIMMARK ENERGY PRESENTATION

Simmark's talk will cover all things solar, batteries, government rebates and energy efficiency.

Including:-

- solar products (panels, inverters, batteries) and how to best use them
- off grid solar and battery products
- government rebates for solar (STC)
- coming rebates for batteries
- air conditioning systems (wifi controllers etc) and new rebates.

PROGRAM OF TALKS IN THE FARMING SKILLS TENT

FRIDAY

FARMING SKILLS TENT

SATURDAY

FARMING SKILLS TENT			
TOPIC	TIME	PRESENTED BY	ORGANISATION
Introduction to small scale farming	10.00 - 10.45	Paul Gibson	Lifestyle Farmer
Tractors, operation and maintenance.	11.00 - 11.45	Ray Watson	Diesel Mechanic
Fencing Construction / Repairs	12.00 - 12.45	Dave Page	Austral Wire Products
Farm machinery / plant and their uses	1.00 - 1.45	Paul Gibson	Lifestyle Farmer
Pastures, Hay and Silage Production	2.00 - 2.45	Terry Fahl	Farm Contractor

GUEST SPEAKER PROFILES

TERRY FAHL

Terry Fahl is a local resident of Berry who grew up working on his family's dairy farm before starting his rural contracting business. Over the years, Terry has gained extensive experience and

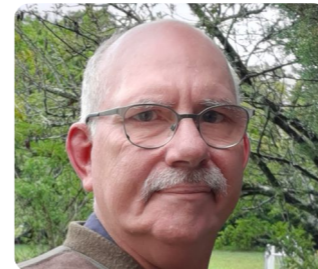

knowledge in farm management, pasture establishment and fodder production. He has provided advice and support to numerous landholders on improving pastures and effective ongoing pasture management. Terry is also skilled in plant and machinery operations, with a keen eye for problem-solving and mechanical repairs.

DAVE PAGE

Dave Page has a wide range of experience and knowledge in farm fencing construction, maintenance and repairs. He has taken that knowledge to a professional level as the Southern NSW Rural Sales Manager for Austral Wire Products

where he has worked for 4 years. With his knowledge of fencing materials, products and construction methods, David offers an insight into fencing to the prospective farm owner of the products and applications in a rural environment.

PAUL GIBSON

Paul Gibson was the proprietor and one of two facilitators of Lifestyle Farming Courses, which he ran from his property in Berry for eight years. From 1998 to 2022, he established and managed a small boutique winery.

He also started a beef cattle farming enterprise in 1996 and, with his wife and family, owned and managed a diverse family farm incorporating poultry, horses, sheep, household vegetable production and assorted fruit trees. With a wealth of hands-on experience in agricultural pursuits, he shares some of that knowledge in a brief introduction to small-scale farming presentation.

RAY WATSON

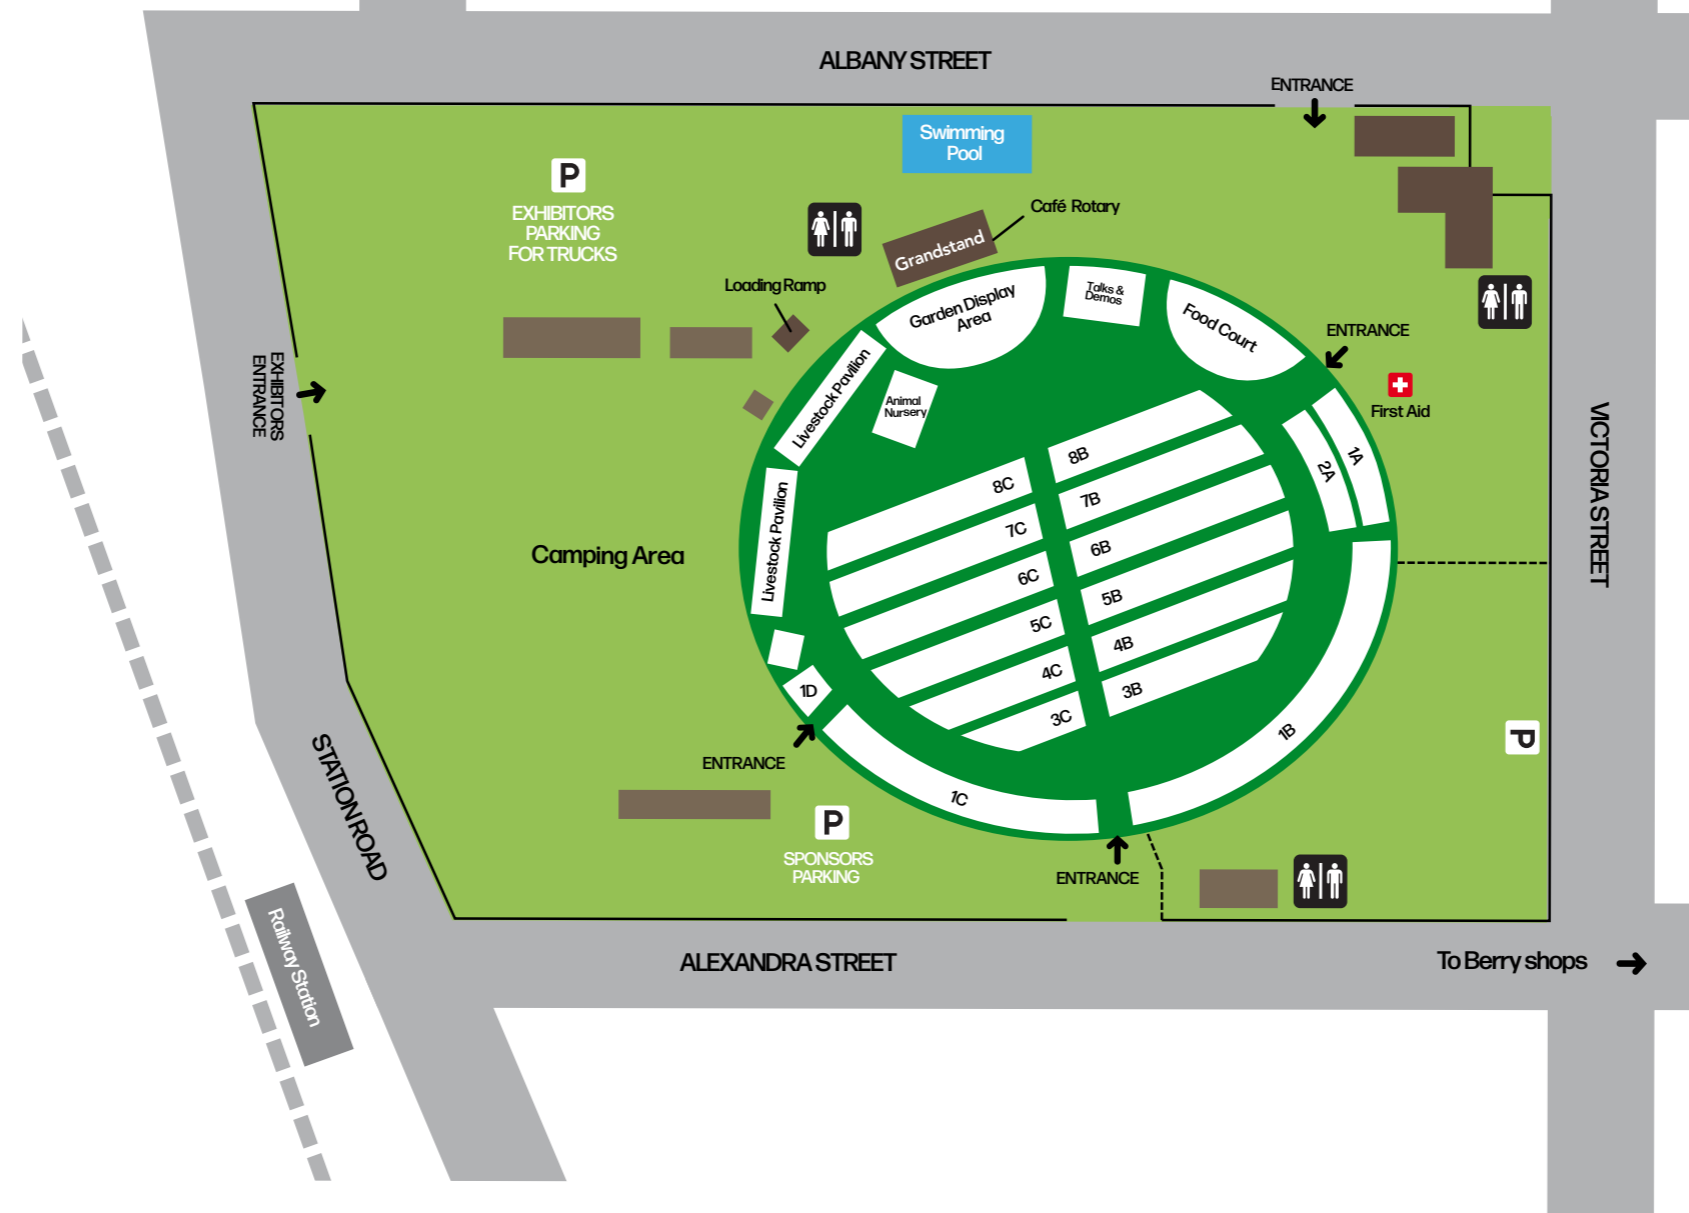

Ray has been in the agricultural machinery business for approximately 50 years. He began as an apprentice mechanic at the David Brown dealership in Bowral. Ray moved to Berry in 1980, initially working as a mechanic and then as a

service manager before transitioning into sales. He served as a dealer principal for 18 years. For the past 15 years, he has been involved in farm machinery and tractor repairs alongside his eldest son. Now, Ray is trying to retire....

WHAT TO SEE

Valais Blacknose sheep originate from the Swiss Alps and are renowned for their unique appearance and docile temperament. Having only been in Australia for 4 years; this breed is still growing in Australia.

They are a very social animal and gentle breed with a special interest in young children and the elderly.

ALICIA MCCONNELL | 0487 987 435
ALORA_PRESTIGE_STUDS@OUTLOOK.COM.AU

**VALAIS
BLACKNOSE
SHEEP**

**NIGERIAN
DWARF MILKING
GOATS**

Nigerian Dwarf goats are naturally small in size, friendly and gentle. They will find a place on small acreages aiding in weed control and as mini milkers. Their milk has a high butterfat content and can be used to produce a cheese that is valued for its earthy flavour. Goats milk cheese can be substituted in practically any recipe where cows milk cheese is used.

CATHERINE AT FREE SELECTORS DAIRY STUD
0424 350 321

Miniature ponies originate from the Falabella pony of Argentina. They have been bred for their small size, gentle nature and calm disposition. Miniature ponies can be shown competitively or kept as pets, with the added advantage of mowing your lawn.

Because of their small size they require less paddock space than full sized ponies and they do well on pasture alone.

LEANNE AT LEANISHA MINIATURE PONY STUD

**MINIATURE
PONIES**

**AUSTRALIAN
LOWLINE
CATTLE**

Australian Lowline cattle are descendant of the pure Aberdeen Angus cattle. They are a short framed, meat producing breed with a good grass to meat conversion ratio. Naturally polled with a beautiful docile nature and ease of birthing traits, they are a perfect small farm breed. They are displayed by David Gardner and family from the heritage farm, Applegarth, at Milton.

DAVID GARDNER 0401 034 766
DAVID@APPLEGARTHHERITAGEFARM.COM

Classified as endangered by the Rare Breeds Trust of Australia, Ryelands are one of the nine heritage breeds that founded the Australian Sheep and Wool industry.

Once a popular terminal site of prime lambs, these naturally hornless sheep were used in the development of the poll dorset to introduce the polled gene. The ewes make excellent mothers. We are currently trying to develop coloured Ryelands extending their appeal to hobby farmers and home spinners.

MATHEW VALENTI 0447 435 510

RYELAND SHEEP

Alpacas were imported into Australia in 1987 from Peru and Bolivia. They are farmed primarily for their fleece production, although there is a gourmet meat market. The luxury fibre that they produce has outstanding fineness, softness and warmth and come in a range of natural colours from white through fawns, browns, greys and true black. Alpacas are used as herd guards for sheep and goats.

IAN FRITH AT MILLPACA ALPACAS 02 4464 1728

ALPACAS

WHAT TO SEE

Springhill Farm has Nigerian Dwarf goats and Australian Miniature Goats. They grow to the size of a medium dog and make wonderful pets. The Nigerian Dwarf goats are a great option for anyone who wants to milk them and make cheese, and soap etc. Mini goats are friendly and full of personality and make good family pets. They are also suitable as show animals.

NATASHA AT SPRINGHILL FARM 0427 835 426

NIGERIAN DWARF GOATS & AUSTRALIAN MINIATURE GOATS

From chainsaws to pruning saws, all sorts of hand tools, power tools and everything in between, you will find them at the Field Days.

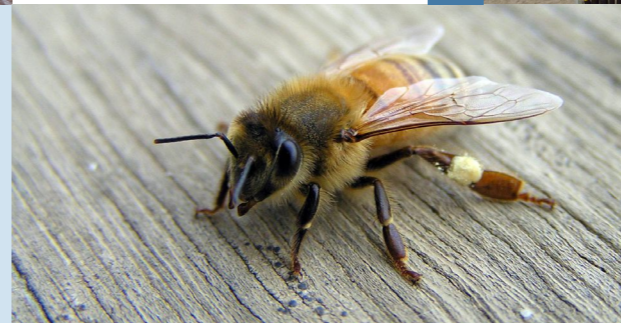

TOOLS

REO GRANDE BABYDOLL SHEEP

This small breed are known for their friendly and gentle nature, making them easier to handle, especially around children. They also require less space and feed. Their teddy-bear-like appearance and compact size make them popular for ornamental or hobby farming purposes. The unique babydoll 'smile' is hard to go past. They lamb once per year with lambs generally landing in Autumn/Spring and are for sale in Summer.

BABYDOLLAUSTRALIA.COM.AU
INFO@BABYDOLLAUSTRALIA.COM.AU MATILDA'S

SHOALHAVEN BEEKEEPERS

Look into the fascinating world of the honeybee at the Shoalhaven Beekeepers site. Taste some honey and find out what it takes to have your own backyard hive and produce your own pure honey. The Beekeepers group meets 3rd Wednesday monthly at Nowra.

ENQUIRIES: LAURIE 0428 441 667

Miniature Herefords were developed in Texas for over 30 years from full-sized Herefords and first imported into Australia in 1995 from the USA. Herefords are distinctive with their red coats and white faces. They are one of the most common breeds of cattle throughout the world. Miniature Herefords have all the attributes of full-sized Herefords but in a smaller package.

ENQUIRIES: SUE PARISH, PALISADE MINIATURE HEREFORDS 0429 965 361

MINIATURE HEREFORD CATTLE

Do you need to make life easier on your property? A new tractor might help - you'll be able to check out all the options from 25 Hp to 150Hp machines, plus slashers, mulchers, diggers, excavators and much more.

TRACTORS

CHARLIE & HARLIE

Charlie the Brahman Bull and his son Harlie, have made an appearance at field days and agricultural shows for a few years now. They are always popular with visitors to the field days, both young and old. Accompanying Charlie and Harlie will be Gary Nelson and his wife, Robyn. Gary also runs a local Livestock Transport business and is well known in the farming community.

ENQUIRIES: GARY NELSON 0412 429 320

LAWNMOWERS

Mowing your lawn can be either a chore or a joy. You can compare ride-ons, zero turns, electric mowers, trimmers, chippers, ATVs ... whatever you need to keep your place looking good and have fun doing it.

Matilda's Farmyard Nursery has been operating for 22 years. It gives children a chance to get up close and personal with some farm animals. For the younger visitors, there are baby farm animals to pat. The chickens, ducks, rabbits and guinea pigs are very popular with youngsters. You might meet Idol the donkey or Lucy the Llama.

ENQUIRIES: VENETIA 0403 621 676

MATILDA'S FARMYARD NURSERY

Decorating your garden can really make your place look great. Hand-made imaginative garden art or sculptures are often hard to find ... or maybe that special plant you have been looking for. You may well find it at the number of exhibitors showing their wares.

DECORATE YOUR GARDEN

CLYDESDALE HEAVY HORSES

Clydesdales are one of the most recognisable of the heavy horse breeds and are one of the tallest, with adult males standing at up to 19 hands (1.9m). They originated in Scotland in the area of the Clyde River. Clydesdales are happy giants with an easygoing temperament and calm demeanour. Although nowadays mostly used to pull horsedrawn carriages, they also make excellent riding horses.

REFRESHMENTS

From Devonshire teas & home-made cakes from the Grandstand cafe to hot food from around the World from our dedicated food-court, there's something for everyone's taste.

POULTRY

Unfortunately due to the bio security risks of the Avian Flu there will be no poultry on display this year.

Rotary
Club of Berry

Working for the community

For over 60 years the Rotary Club of Berry has been working for the community both locally and overseas.

The funds raised from the Berry Small Farm Field Days go toward the Club's various community, youth development and international activities.

Along with our scholarship support of young students in our area through various youth development programs, during 2023-24 we financially assisted the following

local organisations: -

- Salt Care - Nowra
- Shoalhaven Suicide Prevention Awareness Network
- CanAssist Shoalhaven
- Shoalhaven Kids in Need
- Berry Silver Band

Within Australia we have also supported:

- Australian Rotary Health
- Rotary's Disaster Relief Fund
- The Cancer Council

And overseas projects supported include:

- Rotary's End Polio Now campaign
- ShelterBox - Emergency Accommodation Relief
- The Rotary Foundation Annual Fund
- Fiji School Solar Project

The Berry Celtic Festival has been staged by Berry Rotary for the past 17 years
